GitHub: https://github.com/ritik-kumar660 Mobile: +91-9263583729

SKILLS

Languages: C++, Python, C, Java, Kotlin, JavaScript
Frameworks: React.js, Node.js, Next.js, Bootstrap
Tools/Platforms: MySQL, MongoDB, Figma, XAMPP, Git, GitHub, VS Code, Android Studio
Soft Skills: Problem-Solving, Team Player, Time Management, Adaptability

PROJECTS

AI-Powered Plant and Disease Identification | GitHub | JavaScript, React.js,Node.js, MongoDB Nov' 25

- Built an AI-based platform to identify plants and detect diseases using CNN models and REST APIs, enabling real-time analysis of plant images
- Developed the backend with Node.js and MongoDB to efficiently manage plant data, disease information, and user interactions.
- Designed a clean and responsive frontend using React.js and Tailwind CSS to ensure a smooth user experience across devices
- Added features like a plant encyclopedia, automated disease detection, and personalized care suggestions to make the platform more useful and engaging

Health Mate AI | GitHub | Node.js, MongoDB, React.js, REST API, Git, GitHub Sep' 25

- Created an intelligent healthcare assistant that evaluates user symptoms and offers instant health-related guidance
- Set up a well-structured server-side system with Node.js and MongoDB to organize patient inputs, medical data, and chatbot communication
- Added a doctor appointment scheduling feature to streamline the booking process and improve accessibility.
- Ensured proper handling and protection of sensitive user information throughout the application

TRAINING

Data Structures and Algorithms (DSA) using C++ |LPU Jun' 25 – Jul' 25

- Gained a strong understanding of core data structures such as arrays, linked lists, stacks, queues, trees, binary search, and hash tables through consistent practice and problem-solving.
- Wrote efficient and structured programs in C++, applying object-oriented programming concepts to organize logic and improve code readability.
- Explored different approaches to evaluate and optimize solutions by analyzing time and space complexity using Big-O notation in various scenarios.

CERTIFICATES

- Social Network|NPTEL Nov' 25
- Computational Theory|Infosys Nov' 25
- Fundamentals of Network Communication|Coursera Sep' 24
- Introduction to Hardware And Operating System|Coursera Sep' 24

ACHIEVEMENTS

- Successfully solved 200+ problems in **Data Structures and Algorithms** on LeetCode and HackerRank, building strong expertise in algorithms, optimization, and coding patterns. Dec' 25
- Earned a 5★ rating in Problem Solving on HackerRank by consistently excelling in competitive programming challenges and algorithmic problem-solving.

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology Computer Science and Engineering; CGPA: 7.67 Aug' 23 – Present
- **Swami Sahjanand College** Jehanabad, Bihar
  Intermediate PCM; Percentage: 70 Mar' 21 – May' 22
- **Upper High School** Jehanabad, Bihar
  Matriculation; Percentage: 79 Mar' 19 – May' 20
